

*Textilsammlung Ikle - Katalog*; Wild, B 1908

Translated title: Textile Collection

The Iklé collection of the textiles at the St. Gallen Museum in Switzerland has been a reference for scholars and textile researchers for over a century. This book lists and describes 1467 items of both lace and embroidery, and there are photographed examples on almost every page. It is written in German, but it is not hard for the non-German speaker to get a good idea of the descriptions as they are short and easy to figure out. Those who read German will be interested in the Forword by E. Wild and the Introduction by Leopold Iklé
